

HAS WELCOME FOR MASON

El Paso Lodge No. 130 to Hold Past Master's Night Next Sunday.

Invitations are being sent to all Masons in the city and vicinity to attend past master's night and a reception to grand lodge officers in Masonic temple Monday night, May 7. Besides the resident members of the order many whose membership is held in nearly every state in the United States, Canada and Mexico probably will attend. A special request has been made that Masons in the army and navy here be present.

Due to the fact that El Paso is significantly honored on the grand lodge of Texas, A. F. & A. M. this year, an attendance that will pack the temple is looked for. For the first time in its history this city has two men of the official board of the grand lodge, George F. Morgan, grand junior warden, who will become grand master in December, 1924, and Tom C. Lee, grand orator. John D. Mason is district deputy grand master for this district.

Masonic Home, Acker's Subject. Walter Acker, a past grandmaster of Texas, now superintendent of the Masonic Widows and Orphans' home at Fort Worth, is to be present and will speak of the work of the home, which is carrying on a noble work for the fraternity.

Following an informal social session in the clubrooms at the Masonic temple from 7 to 8 p. m., with music, El Paso Lodge No. 130 will open in the auditorium at 8 o'clock to carry out the following exercises:

The Night Program. Music, followed by prayer by rabbi Martin Zielonka. Roll call of deceased past masters. Music, "Crossing the Bar." Roll call of present past masters. Address of welcome by worshipful master Horace J. Hayes.

Fraternity greetings by J. Ashley Giese, junior warden. Short responses by representatives of visiting lodges.

Reminiscences, by past master Solomon C. Schuchman.

"How to Hold Three Jobs. Commercial, Fraternal, Devotional," John H. Mason, district deputy grand master.

"From the Panhandle to the Brazos via El Paso Route," by George F. Morgan, grand junior warden.

"How I Came to Be an Orator," Tom Lee, grand orator.

"My Wife and Yours, the Masonic Widows and Orphans' home," Walter Acker, superintendent.

Music, "God Be With You Till We Meet Again."

Refreshments will be served in the banquet room and music will be played there.

Reorganizing S. E. M. Degree. Preparatory to resuming rehearsals of the superexcellent masonic degree, the working terms of El Paso Council

will be held at the Masonic temple, Monday night, May 7.

HE FEELS LIKE A BRAND NEW MAN

Clerk at El Paso smelter suffered three years and found no relief.

"I just simply feel like a brand new man all over and am gaining every day that I live, since I started taking 'Tanlac,' said a clerk at the El Paso smelter, when interviewed by the Tanlac representative a few days ago.

"The terrible suffering I went through with for three long years, almost made me a wreck out of me," he continued, "for nothing that I could get to take in the way of medicine, relieved my stomach trouble. After I ate a meal, the food would sour in my stomach and start a spell of cramps that would nearly draw me double. I could not retain the food that I ate and I got in an awful shape."

"My nerves became affected and I was so shaky and restless, especially at night that I couldn't sleep a wink. Many a night I have been awake for hours in pain from the stomach trouble and with my nerves jumping and quivering until I didn't get a bit of rest, but would get up almost as tired and worn out as when I went to bed. I was not equal to my work, but just kept on forcing myself to stay on the job in spite of the fact that I was hardly fit to be up."

"I was in the El Paso papers about what Tanlac had done for people that I thought it might help me and I started taking."

"Well sir, I haven't weighed, but I know by the way my clothes fit me, that I have gained several pounds in weight since I began on that first bottle, and I am getting stronger and heavier every day. I haven't a bit of trouble after meals any more, because that stomach trouble is a thing of the past. I can eat as much as I want of anything that I want and nothing bothers me at all. I just simply feel like a brand new man."

"I am glad to say that I am as healthy as a horse and my sleep tastes me and does me good."

"Nothing that I ever took but this Tanlac, helped me in all, and it has certainly made a wonderful improvement in me. I gladly recommend it to all my friends, and to anyone who suffers from the same trouble that I did for I believe it will do the same thing for them that it has done for me."

Tanlac is sold in El Paso by Kelly and Pollard Company, Inc., under personal direction of a special Tanlac representative.—Adv.

Little Bobbie's Pa
Ma Has a Few Questions Of More Importance Than Those In The Almanac.
By WILLIAM F. KIRK.

I NEVER knew till today, said Pa, when he came home last night, what a awful lot of things there is in the world that I never knew before. I feel kind of stunned this evening, Pa said, like a kid that has lost his way home.

You have more or less trouble finding home many times, said Ma, but what seems to be on your mind now?

Oh, said Pa, I got hold of an Almanac that someone had left in the car and I was looking at it cumming up town, and I bet you don't know what county president Chester Arthur was born in, said Pa.

No, said Ma, I don't know.

Well, said Pa, I know, but I ain't going to tell. Do you know how many millions died of spavin in Spain in 1872?

No, said Ma, but I am keeping it to myself. Sum of these days, said Pa, you will admit that your husband is the best read man in the whole ward. You will be proud of me then, said Pa, and all he has to do is to read this Almanac.

There are many questions not in that book with I would much rather have you answer them. Ma, Question No. one is, What will you have for dinner? Stake or chops? said Ma.

No chops, said Pa. I expect in this Almanac that many people eat Anthrax from eating chops. I will have stake, said Ma, about three eggs.

Maybe, said Ma, if you will look in that wonderful book of yours you will find that eggs are so high that only the wealthy can afford them. How wealthy are you tonight? said Ma.

He has the price.

I am thankful with that bankroll that would choke a horse, said Pa, here is \$50. Send out and get a dozen eggs and keep the change. We must eat this Pa, in order to have strength to take away these 50 dollar bills from our new men.

I will not look, because I will not diet, said Pa. Every American citizen is entitled to the pursuit of life and liberty and lunch, said Pa. Rather than be a starving slave, said Pa, I will die of over feeding. Facing the heater on a empty stomach never appealed to me, Pa said, and I want my three square meals every day.

Well, said Ma, I suspect that if you want them you are going to get them. I will hate to be lost on a desert island with you, said Ma, with only a little food. I don't say you would talk more than your share, said Ma, but you would talk your share was enough for three hired men.

Well, said Pa, be that as it may, I will furnish the money and you will furnish the food, no matter how high it costs. As the old German philosopher, Herr Herring, said, to eat well is to live well, to live well is to die well, and to die well is to live well. Bring on the beans, said Pa. While thru life we really practice, give the inner man a chance, said Pa, and that is more truth than poetry.

Of the women arrested only seven were in court Thursday afternoon. The rest of them failed to appear. Six of them were given \$25 each and the other one a \$25 fine.

The Art of Courtesy

BY BEATRICE FAIRFAX.

In What Does It Consist? Not a Matter of Clothes, but Of Innate Feeling. How To Acquire It.

POLITENESS in fashion? Are we growing more or less courteous? Are men more amiable than women workers? Are salespeople or customers the better bred?

All these questions have been pouring in on me for several weeks since the discussion of the manners of girl clerks was introduced by "A Meca Man."

Let us take these questions in order and think about them quickly and anxiously. First, is politeness still in fashion? Of course this is a hurried age in which we rush for trains, jostle each other out of the way in our efforts to catch a certain ferry, crowd past each other to get a place on an excursion train and swarm madly against and upon almost every one of our efforts to "catch" a particular car or boat.

And mad hurry never yet remembered its manners? If we mean to retain a vestige of consideration for others—consideration which is greater than and includes politeness—we must slow up a bit.

Every one has heard the story of the Japanese diplomat who was hurried from a subway train to a station by a man who had stepped on the first train. He asked:

Oh, yes. But by making those two changes, we saved a minute and a half," was the answer.

The Great Question. With oriental impassivity (and I always imagine that there is almost a Yankee twinkle back of that oriental calm) the great Japanese diplomat asked: "And now that we have that minute and a half, what are we going to do with it?"

Representatives, have saved ten seconds or five minutes by a lack of consideration for others, we never have any particular use for them.

"Wait your turn" is an important slogan for most of us to remember. Pushing and shoving and the crowd on our way onto a train or up to a soda fountain is a matter of nervous tension rather than of rudeness. But surely soon if we keep it up, we are going to be the most impolite nation on the face of the globe.

Are we growing more or less courteous? We ought to be getting an ever deepening sense of courtesy, for we are cultivating attitudes of respect for age, of kindness to youth, and of real understanding of the great sacredness of womanhood. Now since real courtesy springs from the heart and is generally awarded from those who are capable of fineness of feeling to those who merit their respect, it ought to be a growing thing. And it is! Why?

Snobs are never courteous. They are growing more so, but courtesy is not a matter of clothes, but of innate feeling.

That establishes an "Entente Cordiale" and the customer is likely to be cultivating attitudes of respect for age, of kindness to youth, and of real understanding of the great sacredness of womanhood. Now since real courtesy springs from the heart and is generally awarded from those who are capable of fineness of feeling to those who merit their respect, it ought to be a growing thing. And it is! Why?

Courtesy, a calm attitude toward a minute or two, good temper, no matter how the other chap acts; the courtesy of diplomacy are things each of us will do well to cultivate. Both sides of the counter of life need amiable humanness!

EVIDENCE of preparedness in the Arab patrol of El Maida temple, Ancient Arabic Nobles of the Mystic Shrine, of El Paso, is shown by the photograph above, which embraces the detail of the patrol called out at the recent shrine parade. The patrol has been drilling since last fall once a week, getting ready for the annual pilgrimage to the national convention, directed by Forrest E. Baker, Claude H. Miller, Sam Drobner and others. Word received from the Imperial potentate this week has resulted in calling off the trip to Minneapolis, because of war conditions, which affect all patrols in the country, and only a business session will be held. At Tuesday night's meeting of the drifters it was decided to continue drilling in order that the body should preserve its snappy organization, in spite of the abandonments of the summer tour. John M. Wyatt, S. J. Frenchmuth and Sol L. Berg will go to Minneapolis as imperial delegates.

Mr. Lerner said Thursday that a drum and bugle corps will be formed at once as an auxiliary to the patrol with the idea of injecting more "pomp" into the public drills that the organization will undertake.

Big Rewards Offered For CAPTURE OF HOME WRECKER

Tucson, Ariz., May 4.—Trefilo Aros, whose home on East Fourteenth street was wrecked by dynamite three weeks ago, has offered \$1000 reward for detection and capture of the criminal involved. The county supervisors have added another thousand and have asked as much more from the state. An explosion was the second at the Aros home within four months. By it the lives of 14 persons were endangered and damage done to the amount of \$15,000. Repetition of the outrage has been expected, and Aros has had to hire a private watchman.
